Sir:

In response to the Office Action dated April 22, 2002, please amend the above-identified application as follows:

IN THE SPECIFICATION:

The specification is changed as follows:

Page 4, third full paragraph:

91
A further object of the invention is to provide an image display method that can display an increased number of gradations such that monochromatic images used in the medical field can be displayed as high-definition images that can be handled without presenting any unnatural feeling different from the images on the conventional "blue-based" monochromatic films doctors have gotten used to looking at for diagnostic purposes.
